Payment Method

GMU Korea tuition payments must be made directly to the Korea campus via bank wire. Bank wire information is included on individual student tuition invoice and invoice is issued by the Office of Accounting and Finance at GMU Korea. Payment options through the US campus are not available.

Financial Aid, Veterans benefits, and Virginia Prepaid

Financial Aid disburses to the Fairfax campus approximately ten days prior to the start of each term. Virginia PrePaid and VA Benefits are received 2-4 weeks after the terms begins. After disbursement, funds are issued to the student as a refund. *It is strongly recommended that GMU Korea students sign up for direct deposit of their financial aid through the Student Accounts Office in Fairfax.* It is the student's responsibility to pay their bill at GMU Korea regardless of financial aid or other refunds received.

529 Education Plan

Students using 529 education savings plans, with the exception of Virginia PrePaid, should have the fund distribution sent directly to themselves, and then submit payment to GMU Korea via bank wire.

*Scholarships may be available to maintain student's existing tuition rate while studying at GMU Korea

For payment inquiries, please contact Mason Korea Office of Accounting and Finance (mkfinan@gmu.edu)
